Specialist Teacher

Outpost Program

Permanent Full time

- *Partner with a multi-disciplinary team that focuses on maximising the classroom and playground participation of individual students of varying ages with a hearing loss.*
- *Be provided with the time to teach individual students - supporting them socially, therapeutically, emotionally and academically.*
- *Grow your knowledge in a nurturing environment that is committed to evidence based best practice*

Telethon Speech & Hearing (TSH) is a Western Australian not-for-profit organisation, registered charity, independent school and NDIS provider that has helped children with speech, language and hearing difficulties lead fulfilling lives since 1966.

We are seeking a specialist Teacher to join our **Outpost Program** – a program which provides comprehensive in-school support for students with hearing loss who use oral communication from K-12 at our partner primary and secondary schools around the Perth Metropolitan area.

This is a truly unique teaching role that provides individualised specialist support to students who are fully integrated into mainstream classes and receive the curriculum from their school. The role partners with a highly skilled team of professionals (including psychologists, speech pathologists, audiologists and occupational therapists), to work with students both within the classroom as well as away from the mainstream classes to focus on specific areas including extra language, speech, auditory, social/emotional and academic support.

The successful candidate will be an experienced and/or qualified Special Needs Teacher with highly developed numeracy, literacy and language skills. Extensive knowledge of childhood social and emotional development is required as well as the ability to create an inclusive and nurturing environment that recognises every person's unique talent and fosters positive outcomes.

The successful candidate will have a history of building strong relationships with external stakeholders and families, be adaptable to different expectations and environments and be able to coordinate and utilise the resources and knowledge around them to provide exceptional support to individual students.

Telethon Speech and Hearing is committed to excellence therefore we will provide a comprehensive induction program and ongoing professional development to build knowledge of supporting individual students with a hearing loss.

Scholarships for Master's level qualifications are available to Telethon Speech & Hearing employees who have aspirations to build a long-term career supporting children with hearing loss. Scholarships are subject to terms and conditions and based on a formal selection process.

Telethon Speech & Hearing is committed to providing a child safe environment and promoting practices which provide for the safety, wellbeing and welfare of our children, clients and families. Therefore, in addition to the above selection criteria, short listed applicants will also be assessed against their ability to support and maintain a child safe environment.

This is a permanent full time position based in one of partner our Outpost Schools south of the river (Cockburn area).

For a confidential discussion regarding this opportunity please contact Janene Hall, Principal, on 0467 067 505.

To apply, please submit your application via email to hresource@tsh.org.au by 9am Friday, 3rd December 2021.

TSH is an equal opportunity employer and we encourage people from different backgrounds to apply, including Aboriginal and Torres Strait Islander peoples, people from culturally and linguistically diverse (CALD) backgrounds and people with disabilities.
